Stream Crossing Trainings

• 3 regional sessions being scheduled
• Similar to those held last year, but:
  • Not only bankfull, but talk about structure types, determining stream slope, establishing grade control, etc.
  • Different locations and field sites
  • More time in field
  • More “hands on” (i.e. you do the measurements)

Locations and dates to be determined. Planning for May 2018 poll
TU Project Assistance

• Should have received letter from Center on 1/16 with details
• More staff availability at TU to provide technical assistance and project oversight related to stream crossings in all watersheds statewide.
• We are looking for upcoming stream crossing replacements to use in grant, but must be within the Chesapeake Bay.
